MEMORANDUM FOR: Director of Logistics

SUBJECT: Procurement of Air Conditioners for [REDACTED]

REFERENCE: [REDACTED]

1. It is requested that two three-quarter-ton Carrier air conditioners, adjusted for 220 volt, 50 cycle current, be procured and shipped to [REDACTED]

2. One of these air conditioners will be used in the Station [REDACTED] where insufficient ventilation causes a substantial loss of employee efficiency [REDACTED] 3, b., (2), (c). The other will be used in the master bedroom [REDACTED] house and is justifiable on the basis that ventilating equipment is installed in similar areas [REDACTED] and is in accordance with the current policy and practice of that activity [REDACTED] 3, b., (2), (d). These air conditioners are further justified on the basis of climatic conditions [REDACTED] which are equal to or are above any of the dry-bulb wet-bulb temperature combinations shown in the regulations [REDACTED] 3., b.).

3. The air conditioner now installed in the [REDACTED] bedroom, which was provided by the owner of the house, is old and cannot be maintained in a satisfactory state of repair except at an unreasonably high cost. This appliance would, therefore, be replaced by the new one requested above.
